

**Norfolk Virginian**  
ESTABLISHED 1875.  
PUBLISHED EVERY MORNING EXCEPT  
SUNDAY.  
VIRGINIAN BUILDING.  
MAIN AND COMMERCE STREETS.  
M. GLENNAN, OWNER.

THE CIRCULATION OF THE VIRGINIAN  
IS LARGELY IN EXCESS OF ANY OTHER  
PAPER PUBLISHED IN EASTERN VIRGINIA.  
Its circulation in Norfolk and Portsmouth  
is greater than that of any paper published  
or circulated in the two cities.  
It is delivered in the cities of Norfolk and  
Portsmouth and suburbs for 10 cents a  
week. Mail subscriptions, postage paid.  
Five Dollars per year; Three Dollars for six  
months. One Dollar and Fifty Cents for  
three months, and Fifty Cents for one  
month.  
Advertisements inserted at the rate of 75  
CENTS A SQUARE FIRST INSERTION; each subse-  
quent insertion 50 CENTS, or 50 CENTS  
THREE TIMES THE FIRST OTHER DAY. Con-  
tractors are not allowed to exceed their space  
or advertise other than their legitimate  
business, except by paying especially for  
the same.  
THE WEEKLY VIRGINIAN AND CAROLINIAN,  
eight pages, is delivered, postage paid,  
three months, 25c; six months, 50c; twelve  
months, \$1.  
Entered as second-class matter.

With a population not much over  
half that of London, New York city  
proper consumes daily 183,000,000 gal-  
lons of water against 190,000,000 for  
London.

The New York Board of Police Com-  
missioners have notified all officers,  
and men of the force, to at once sepa-  
rate themselves from any and all po-  
litical clubs and societies, on pain of  
removal.

The Pension Bureau has been strug-  
gling with the question when did the  
late civil war end? Recent indications,  
remarks the Washington Star, are to  
the effect that in the minds of some  
people it is not over yet.

#### IMPROVING SOUTHERN BUSINESS

The Tradesman of Chattanooga,  
Tenn., has received reports of in-  
dustrial conditions from all parts of  
the South for the week ending May  
28th, and among the improvements re-  
ported are:

A 150-ton iron furnace is to be built  
at Pulaski, Va., by the Palaski Iron  
Company; the Bessemer steel plant at  
Bessemer, Ala., is to build at once, an  
appropriation of \$300,000 having been  
made for that purpose, and a rolling  
mill at Birmingham, Ala., has also a  
steel plant under way, to be completed  
within six months. The English own-  
ers of the Watts steel and iron plant  
at Middleborough, Ky., have cabled  
the manager to put their iron furnace  
into blast July 15, and to put their  
steel works into operation August 15.

The Tradesman also reports that  
there is little cessation in the activity  
in building cotton mills in various  
parts of the cotton belt of the South.  
The list of mills for the present week  
includes a cotton mill at Montevallo,  
Ala., one at Charlotte, N. C., and one  
with 5,000 spindles and 225 looms at  
Irene, S. C. Enlargements of cotton  
mills will be made at Durham and  
King's Mountain, N. C., Fort Mill and  
Piedmont, N. C. The woodworking  
industry has been much encouraged  
by recent advances in prices, and new  
plants have been established during  
the week at Boxeoye, Ala.; Pine Bluff,  
Ark.; Natchitoches, La.; Riceville, Tenn.;  
Bamberg, S. C., and Weston, W. Va.

#### WHAT TO EXHIBIT IN MEXICO.

The proposed Mexican Exposition  
next year will be a great affair. After  
fifty years of revolutions and political  
changes, Mexico is now enjoying peace  
and prosperity. The administration of  
General Diaz has incited confidence in  
Mexico's finances at home and abroad.  
Industry and commerce have consid-  
erably developed during the last twenty  
years, export and import have doubled.  
The value of the exports from Mexico  
for the financial year 1891 was more  
than \$63,000,000, and of the imports  
more than \$50,000,000. Of the total  
exports for 1892 the United States re-  
ceived \$50,000,000, Great Britain \$15,-  
000,000, France \$5,000,000, Germany  
\$4,000,000. There are more than 7,000  
miles of railroad open to traffic. The tele-  
graph lines have a total length of 38,000  
miles. The Post Office receipts of the  
Mexican Government were in 1891 \$2  
\$1,142,182. Navigation is practised on  
lakes and rivers at the coasts and across  
the ocean. Mexico possesses a mer-  
chant navy of 1,268 vessels, and there  
are more than 30 excellent harbors.

Mexico's trade with the United States  
increases more rapidly than it does  
with any other country.  
The American manufacturers must  
make a display of their electrical and  
steam machinery, hardware and tools,  
plated ware and cutlery, agricultural  
implements, rails and locomotives,  
well-boring apparatus and pumps,  
pianos and organs, railroad cars for  
passengers and freight, mining ap-  
paratus, silk and wooden goods, printing  
presses and type, books and paper,  
maps and globes, slates and litho-  
graphic stones, canned meats and pre-  
serves, clocks and watches, quillsilver  
and petroleum and a hundred other

articles which Mexico does not pro-  
duce herself.

American industry cannot afford to  
stay away from the Mexican Expo-  
sition as Spain and France, Germany  
and Italy are already making strong  
efforts for a great participation.

"The Federal Government" of Mex-  
ico has liberally consented to admitting  
free of all duties all materials and ma-  
chinery to be used in the construction  
of any buildings on the Exposition  
grounds, while all goods and articles  
imported from abroad for the Expo-  
sition will be treated by the Mexican  
Government as imported "in bond"  
and import duties will have to be paid  
only in case of sale. The exhibitors  
and concessionaires—those who sell  
foreign articles, or have hotels, restau-  
rants, barrooms, theatres, circuses, and  
other shows in the foreign section, are  
to be exempt from all federal taxes.  
The railway and steamship companies  
will carry exposition freight for con-  
siderably less than the regular tariff.  
It is proposed to offer special pro-  
mises for the best model houses of  
different countries, said houses to be  
entirely constructed of material pro-  
duced in the country which they rep-  
resent.

To encourage immigration the Mexi-  
can government has granted free intro-  
duction of constructing and repairing  
materials for tramways for a period of  
thirty years. It will give concessions for  
hotels free from taxes for a period of  
ten years and will allow a free intro-  
duction of all furniture, crockery, glass-  
ware, etc., to be used in said hotels.  
It has promised to a colonization land  
company, which is now being organized  
in Chicago, the special concessions of  
free introduction of houses, implements,  
etc., and the liberation from paying  
taxes for a period of ten years.

There is no doubt that Mexico's po-  
pulation will in the near future increase  
in the most surprising manner and  
there will be a vast field for American  
enterprise and business speculation.

#### A MONUMENT OF PEACE.

There could be no better evidence of  
a reunited country than that offered in  
the erection and dedication of a monu-  
ment to the Confederate dead in Chi-  
cago a few days since, in which ex-  
Union as well as ex-Confederate sol-  
diers took almost an equal part. In  
spite of a few who continue to cry  
down the South a number of Grand  
Army Posts were present and partici-  
pated in the ceremonies and there were  
also present many distinguished Fed-  
eral officers.  
The occasion, in fact, was a reunion  
of men who thirty years ago faced each  
other in deadly combat, but recogniz-  
ing the true soldier they met to do  
honor to the dear heroes to whose  
memory the shaft had been erected—  
one to pay a fitting tribute to his de-  
parted comrades; the other to pay a  
tribute to the valor and to bear evi-  
dence by their presence that they had  
no animosity against the men at one  
time their foes. The incident showed  
that the war is ended and that there is  
no longer any feeling between the men  
who wore the blue and those who wore  
the gray.

The Confederate monument at Chi-  
cago was erected, to a large extent, by  
men who fought the Confederacy. It  
was erected in a city whose people were  
opposed to the South during the war,  
and Grand Army men marched side by  
side with Confederate veterans to the  
place where the ceremonies took place.  
Besides, the Illinois National Guard  
participated in the dedication, thus  
giving evidence that the young sol-  
diers of the rising generation, like the  
Grand Army men, do not believe in  
keeping alive the bitter memories of  
the war. Truly the Confederate monu-  
ment of Chicago is a monument of  
peace.

#### Lameness

of the back or limbs,

#### Stiffness

of the joints,

#### Congestion

in the chest,

are relieved and cured by

### Allcock's Porous Plaster

Do Not Be Deceived by any "Just as  
good" plaster; insist upon having the genuine.
